About me

Hello,I am "Ralphcoder". I have a huge intrest in competative programming and problem solving. Further i love develop design new and creative stufs. I have created many apps using flutter. Currently i am pursuing my Bachelor's degree from MMMUT university,Gorakhpur.

Skill

C++

Flutter(Software Development)

Web Development

Data Structure and Algorithm

Python

Git & Github

Vedio Editing

Digital Marketing⋆4 Designing⋆3

(*)[The skill scale is from 0 (Fundamental Awareness) to 6 (Expert).]

Projects

Taskey 🔗 Made app using flutter for our daily todos. Implemented state management using provider package to make the app Dynamic The UI is simple, beautiful and user friendly.

Q H C 🔗 (Quick Health Checker) This app is helps to have a quick peek on the health,it gives a overview wheather you are becomoing overweight, underweight or normal.App is made simple,and with cools UI.

Liglo 🔗 Liglo is"Shoping app" UI is Build using flutter with cool Hero animations, tickler,and animation controllers. Made glow effects using Box shadow. I also used photoshop to make the UI little funcy.

Portfolio 🔗 My portfolio website designed using photoshop and build using html,css,javascript.Hosted using github.

Snister Rewind 🔗 is a github repository of independent dart files which are build using pure dart and defalut material package(using no other dependency) making the dart file self-sufficient to use in your poject with simple edits.Some of the coolest widgets Provided in default package and their implementaion to help flutter develpers to speed up thier projects and make it cool.

education

2019-2023 B.tech in chemical engineering
Madan Mohan Malviya University Of technology

2017-2018 (ISC) Intermediate. Class Xll-87.25%
St.Joseph School, Khorabar
